

TECHNOLOGY INNOVATIONS IN THE CLASSROOM FOR STRUGGLING LEARNERS

PRESENTER

Sean J. Smith, Ph.D.

- Professor of Special Education, University of Kansas
- Background in the area of special education and technology, specifically towards the integration of technology across teacher preparation programs.
- Project Director on several USDOE program initiatives seeking to further the integration of technology components across teacher preparation programs and into the lives of students with disabilities

OVERVIEW

The overall focus of this workshop is to share technology innovations that foster meaningful inclusion in the classroom for students with dyslexia, other learning disabilities and other struggling students. The workshop will be an interactive learning experience where participants will be engaged to consider technology solutions to alter the way we seek to serve students.

PARTICIPANTS WILL LEARN ABOUT

- ⇒ involvement in the general education curriculum by the struggling student to ensure that the learner is engaged, supported, and able to learn, with the right tools, at the same level as their grade-age peers
- ⇒ integration of effective practice, elements of the Universal Design for Learning Framework, and innovative technology tools that foster overall learning and development for our struggling students
- ⇒ a host of tools, ideas for classroom application, ways to consider further use, and overall, specific examples of how to integrate the technology with effective instructional practice

Cancellation Policy: HIDA reserves the right to cancel the workshop due to insufficient number of participants. HIDA will refund the full registration fee paid.

Withdrawal Policy: A full refund of the registration fee paid less a \$15 processing fee will be given to those who voluntarily withdraw up to 1 week prior to the date of the workshop.

Workshop funded in part by a grant from the
Atherton Family Foundation.
