HELP for a CHILD

If a child is suspected of having a learning disability, the state Dept. of Education (DOE) can do an evaluation for services at no cost to the parent. Contact the Student Services Coordinator (SSC) at the school the child attends. If the child is homeschooled or attends a private school, contact the SSC at their "home school" (the school the child would attend if they went to public school). Ask for Form 101: Request for Evaluation (For Educational and Related Services from Age 3 to 20).

HELP for an ADULT

If an adult is not employed due to a disability (and this may be due to dyslexia), contact the state Division of Vocational Rehabilitation (DVR) regarding specific eligibility criteria they use to determine if someone qualifies for their services.
